

BJCP CONTINUING EDUCATION ROAD MAP & TRAINING PORTAL

Initial Offerings, Capabilities, and Direction

Bruce Buerger

Purpose of the Portal

- Provide all BJCP members with the opportunity to receive continuing education offerings regardless of location.
- Expand BREW and BICEP offering capabilities.
- Provide self paced learning opportunities to BJCP members.
- Provide the BJCP with the ability to offer educational programs directly to the BJCP membership.
- Provide growth opportunities to BJCP members who wish to contribute.
- Provide educational offerings in multiple languages per demand.
- Conduct membership wide training per new BJCP Board or Exam Directorate initiatives.

The Tool

- Moodle is a learning management system that is used by educators to create personalized learning environments.
- Open source. GNU General Public License. Large support network.
- Used by businesses, universities, and local school systems.
- Highly flexible and fully customizable. Secure.
- Self paced learning. Tracks user accomplishments.
- Scalable to different browsers and devices.
- Supports multiple languages.
- Moodle YouTube Channel -
